Don & Lynn,

School starts on Wednesday and 3000 students will be back on campus, including your friend's son, Max Reszkowski. I will be sure and look him up and say hi.

I just wanted to thank the both of you for another wonderful summer at NFL. I would love to bring a buddy up but it is always a challenge finding someone who shares similar passions for fishing. I truly enjoy coming up alone and am able to spend time with a special group of friends. You always make me feel special. Thanks again for what you did with my boating accessories last trip—you didn't have to.

My last trip I fished in horizontal rain for 4 of the 5 days, didn't catch a muskie, and had another great trip! I explain this to my friends and they just don't get! My friends don't understand and don't get the wonderful journey and adventurer that happens everyday. Each day brings different weather & conditions—it is indeed God's greatest gift! You carry your rods and lures of Hope into the boat, regardless of the conditions and away you go. It flat-out cannot get any better than that! If it was just about catching fish, I would bring a Dahlberg kite and fish at night—what a thrill that must be?

Don, 6:00-7:00a.m. and 5:00-6:00p.m. are indeed special times and I wouldn't miss a minute. Thank you for taking me out on my first trip in early July in which we both just fished--That tank you lost in Lost Bay will burn in my head, unfortunately, for another year—She was a giant!

The cabins are immaculate (which I am never in), the beds are made, fresh linen, the food is absolutely the best, but the fellowship is what I cherish most. Lynn, you work your tail off and have many duties—wear many hats to make it happen-- and you do it!

Hope I can get Ellen up next summer. I am going to take my team overseas next summer, so I might be shifting my dates a little. Have a wonder Fall and if you are ever in the Twin Cities, don't hesitate to call us. We would love to have the both of you over for dinner or a beverage.

Your friend in fishing,

Dan Kosmoski
