Don and Lynn,

Thanks again for a great trip to Nielsen's on Rowan Lake. Nothing is better than getting away from the crowds and fishing those monsters muskies that lurk in Rowan. I fish a lot of lakes here in MN, but my muskie fishing highlight each year is up on Rowan. I've made many trips to your lodge over the years and again I was amazed at the fantastic job that you and your staff do. Those new 20hp motors worked great and thanks so much to your guide Paul for taking the time to help the kids in catching all those smallies off the dock!! Our two boys casted for muskies all day and evening and they couldn't wait to get back to camp to fish those bass off the docks....it's in their blood!

That 50 incher my buddy Paul caught was a real pig and we moved many others like her. Again his son Riley boated 3 fish after last year catching 4 muskies as a 10 year old.

The moment we we got on the plane and left the dock we were already dreaming about coming back next summer!

Thanks again and keep those fishing reports coming...

Mitch and Mitchell Albers
